

Impact of Sports Premium 2013/2014

- Newly Qualified Teachers and EYFS teachers were sent on quality assured courses. This gave them the opportunity to increase their knowledge and skills and enhance their teaching.
- The four football goals and four basketball posts were used regularly by all year groups at playtime and lunchtimes. This enhanced the children's playground experience. Additionally, both sets of posts were used for a football and basketball club respectively. The purchasing of additional basketball equipment allowed us to extend the range of after-school clubs to basketball.
- The trainer bikes in Reception were successful, allowing the children to teach themselves to balance and ride a 2 wheel bike.
- We bought materials to use as starting point for planning the new P.E curriculum. Elements were trialled out this year and we will continue to develop the plans next academic year.
- We invested in a handball coach. This afforded the children an opportunity to play a sport that they might not have had before. Additionally, it allowed for team-teaching which enhanced the knowledge and skills of colleagues.
